

## **FREEDOM OF INFORMATION REQUEST – FOI 646**

### Request:

So under the Freedom Of Information Act can I ask the A&S PCC Office (not the the Constabulary), seeing as it clearly came up with the idea of reviewing the Injury Of Duty Pensioners, to supply me with copies of any correspondence relating to what the anticipated saving were and what the expected costs were to achieving this saving.

### Response:

The information requested is not recorded. Please note that the scope of the Freedom of Information Act is limited to recorded information held at the time of the request. There is no requirement on an organisation to create new information in response to a request. Therefore, this letter represents a Refusal Notice. To assist you further, no savings target has been set or is being tracked in this area by the PCC or the office of the PCC.
