Crown Prosecution Service (CPS) caseload data are available through its Case Management System (CMS) and associated Management Information System (MIS). The CPS collects data to assist in the effective management of its prosecution functions. The CPS does not collect data which constitutes official statistics as defined in the Statistics and Registration Service Act 2007. Data drawn from the CPS's administrative IT system, as with any large scale recording system, is subject to possible errors with data entry and processing. Thus figures reported are provisional and subject to change as more information is recorded by the CPS.

The official statistics relating to crime and policing are maintained by the Home Office and the official statistics relating to sentencing, criminal court proceedings, offenders brought to justice, the courts and the judiciary are maintained by the Ministry of Justice.
